

# **Faculty Development Programs for Regional Site Clinical Clerkship Faculty**

## **Workshops**

### The four basic introductory sessions/workshops

1. Introduction to the DMU-COM Clinical Education Program
2. Clinical Teaching I (emphasis on giving feedback)
3. Clinical Teaching II (emphasis on 5-Microskills)
4. Evaluation Strategies: Nuts and Bolts

### Additional Workshops on Clinical Teaching

5. Handling Challenging Teaching Situations (aka Dealing with the Learner in Difficulty)
6. Teaching Pearls from Your Peers
7. Using Knowledge of Personality Types to Enhance Teaching
8. Teaching Patient Centered Care Skills: Fulfilling the DMU-COM Mission
9. Effective Clinical Teaching: Views from Our Learners
10. Best Practices in Clinical Teaching: Facilitating Learners' Metacognitive Skills
11. Writing Letters of Recommendation for Residency
12. Teaching Ethics in the Clinical Setting
13. Assessing and Reinforcing Patient Centered Skills (under construction)
14. Assessing and Reinforcing Students' Implementation of Behavioral Change Skills (under construction)
15. Assessing and Reinforcing Students' Utilization of Culturally Appropriate Care Skills (under construction)

### Medical Informatics Workshops

16. Introduction to the DMU e-library and PDA Resources
17. Locating and Accessing Full Journal Articles
18. Selecting the best Evidence-Based Medicine Resources (Web and PDA)
19. Drug Resources (Web and PDA)
20. Disease Resources and Textbooks, Including Reference e-Books (Web and PDA)
21. Calculators and Quick Decision Support References (Web and PDA)

## **Modules**

### Modules on CD

22. Module 1: The one-Minute Preceptor
23. Module 2: Feedback and Evaluation
24. Module 3: Small Group Teaching
25. Module 4: Teaching at the Bedside
26. Module 5: Orienting Student to the Learning Setting
27. Module 6: Handling Challenging Teaching Situations

## **Modules Cont'd**

### **On-Line Modules**

28. Module 1: Learning Theory Applied to Clinical Teaching
29. Module 2: Effective Strategies for Giving Feedback
30. Module 3: Introduction to e-Library Resources
31. Module 4: Pub Med Searching
32. Module 5: Differential Diagnosis Tools
33. Module 6: Disease Quick Reference Tools
34. Module 7: Drug Resources
35. Module 8: Decision Support Resources
36. Module 9: Evidence Based Medicine Resources
37. Module 10: Patient Education Resources

### **Meetings (local)**

38. Meetings with Clerkship Director
39. Meetings with Education Director
40. Annual Faculty Meeting

### **National Meetings/Workshops**

41. Attendance at national meeting workshops/seminars at which the major focus is on teaching such as IOMA and STFM pre-conference workshops on teaching, medical informatics or leadership.
