Des Moines Still College
of
Osteopathy and Surgery
Des Moines Iowa
Hospital
The Still Osteopathic Hospital is an integral unit of the Des Moines Still College of Osteopathy and Surgery. The hospital is located directly across from the college building. It is an attractive structure with a 92-bed capacity. The hospital provides complete facilities for all types of hospital care and affords the finest of teaching facilities for the students. The hospital contains a 24-hour out-patient clinic which provides the senior students of the College with unlimited experience in all types of emergency care.
E. F. Peters Ph.D. President  
J. B. Shumaker Dean
College & Clinic
The Des Moines Still College of Osteopathy and Surgery is dedicated to the advancement of Osteopathic Medicine and Research. This College strives to teach the fundamental tenets of Osteopathic Medicine as stated by Dr. Andrew Taylor Still and to make its contribution to science through a well organized program of research.

The Des Moines Still College of Osteopathy and Surgery is proud of its faculty and its comprehensive curriculum. It is, therefore, with pride that the attention of serious-minded young men and women is directed to this college when selecting a school of Osteopathic Medicine in which to enroll.

Edwin F. Peters, Ph.D.
