OSTEOPATHIC MEDICINE

(FROM THE A.M.A. ENCYCLOPEDIA OF MEDICINE)

"A SYSTEM OF DIAGNOSIS AND TREATMENT THAT RECOGNIZES THE ROLE OF THE MUSCULOSKELETAL SYSTEM (BONES, MUSCLES, TENDONS, NERVES, AND SPINAL COLUMN) IN THE HEALTHY FUNCTIONING OF THE HUMAN BODY.

THE D.O. IS A FULLY LICENSED PHYSICIAN WITH THE ADDITIONAL TRAINING IN OSTEOPATHIC PALPATORY DIAGNOSIS AND MANIPULATIVE THERAPY. THE D.O. PRESCRIBES DRUGS AND IS QUALIFIED TO PRACTICE IN ALL BRANCHES OF MEDICINE AND SURGERY.

OSTEOPATHIC PHYSICIANS EMPHASIZE THAT ALL BODY SYSTEMS IN UNISON, AND THAT DISTURBANCE IN ONE SYSTEM CAN ALTER THE FUNCTION OF THE OTHER SYSTEMS IN THE BODY.

THE OSTEOPATHIC PHYSICIAN USES MANIPULATIVE TECHNIQUES, AS WELL AS TRADITIONAL DIAGNOSTIC AND THERAPEUTIC PROCEDURES TO DIAGNOSE AND TREAT DYSFUNCTION IN THE BODY."
Dear Graduate:

Congratulations on successfully completing one of the most challenging milestones of your professional career.

We are proud that you chose the University of Osteopathic Medicine and Health Sciences for your medical education. The months and years of course work and lab training you received from our faculty have given you a strong academic foundation to build upon for continued achievement during your clinical training years.

You are entering medicine at a critical juncture in its history. Current health care reform will have a definite impact on patients, providers and practitioners. Although the future may be uncertain, be assured that the concern and care you show each day to your patients will always be rewarded.

It is my sincere hope that you will distinguish yourself among your colleagues in medicine and continue to grow and achieve as you have already.

Congratulations and good luck,

Myron S. Magen, D.O.
Interim President
"One Person Can Make A Difference"

Once or maybe twice in our lives someone will come along that really is an inspiration to all of us. A person that motivates us to work hard and be the best we can be. A person who understands the people/students and knows what it takes to achieve membership into the profession. A person we look up to, who does not look down upon us. This person understands the need for mutual respect. He knows that being a well-rounded physician goes beyond just performing well academically. He is a leader, and one who knows how to communicate. No one person, or any number of people, can make a person give back the time and effort to the profession as this man has. This drive comes from within, the drive to help teach the principles that distinguish us from the rest of the medical profession. He has gone beyond the call of our honored profession to guide us, so that someday we may guide others. A person of such caliber and uniqueness needs to be recognized, avowed and commended. This year the Class of '93 would like to say...

To Dr. David Boesler, we dedicate this year's Pacemaker to you. Thank you for all the help and support you have shown us in and out of the classroom. We want you to know we appreciate what you have done for us and the profession.

Dr. Purcell is congratulated on swallowing his first eyeball.

"Is that his real hair?"
STUDENTS
The Osteopathic Oath

I do hereby affirm my loyalty to the profession I am about to enter. □

I will be mindful always of my great responsibility to preserve the health and the life of my patients, to retain their respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and with my skill and ability, keeping in mind always nature’s laws and the body’s inherent capacity for recovery. □

I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no drugs for deadly purposes to any person, though it be asked of me. □

I will endeavor to work in accord with my colleagues in a spirit of progressive co-operation, and never by word or by act cast imputation upon them or their rightful practices. □

I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will be ever alert to further the application of basic biologic truths to the healing arts and to develop the principles of osteopathy which were first enunciated by Andrew Taylor Still. □

D.O. Class of 1995

Anita Aggarwal  John D. Beckes  Laurie Hagopian-Dresser  Muhammad N. Hussain

James R. Keene  Lalith K. Misra  Steven W. Palmieri  Henry M. Zeidan

Look how hard GPEPs have to study!

Never take yourself too seriously.
Oath of the Podiatric Physician

Upon my honor, and without secret evasion or mental reserve, I declare that I will accept the moral and the legal responsibilities as well as the privileges which become mine as a member of the profession of Podiatric Medicine.

Those talents with which a beneficent providence may have endowed me will be devoted to aid those who may choose to entrust themselves to my judgement, my care, and to my honor.

In serving my patients I will administer to their needs in a professional manner to the best of my ability.

I will abstain from all intentional harm and wrong-doing to my fellow citizens, and especially from abusing the soul or the body of those who entrust themselves to my professional care. I will refrain from overindulgence of any kind.

In my association with human-kind, both within and without my professional life, I will endeavour to do unto others exactly as I would that others do unto me and mine.

In all good faith, so far as may lie in my power, I will support my profession and will do what I may to advance its best interests even at the sacrifice of my personal advantages.

In all instances will I do that which will reflect credit and honor on this my chosen vocation.

Saturday, October 10 was the Tenth Annual Health Fair. This was a student-run endeavor sponsored by our university. Students from all colleges participated, as well as physicians and UOMHS employees.

The Health Fair provided free medical services to 441 Iowans and their families. An array of physical exams and lab tests were available.

This year’s fair earned the recognition of Governor Terry Branstad, who made an appearance Saturday morning. What made the Health Fair possible was the dedication of the students. By all accounts, the Health Fair was a success.

"I guess I shouldn’t have eaten all that beef jerky and pork rinds."

First Martin L. King, Jr. Celebration

On the evening of January 18, SNPMA sponsored the first annual Martin Luther King, Jr., celebration. A spirit of unity filled the seats of the MEC. The crowd was favored with musical selections performed by the Drake University Choir, the He Lives Youth Choir, and Morning Star Choir. Speakers included Dr. Walter Riley, a local general surgeon, attorney Robert Wright, and SNPMA member George Nangle. Rev. Keith Ratliff, NMIOMA, and Dr. Leonard Levy were also active participants.

They do this a little too well--thanks for the best laugh all year you "guys"!

Susie betrays the other four and shows the secret studying outfit worn by the top five students in D.O. 95.

Candace and D'Laine discuss the importance of looking professional.
The Azneer era has ended. And just as the school was immersed in controversy two decades ago when Dr. Azneer became president, a turn of events has focused attention more on the presidents' manner and methods than his accomplishments.

A series of events was touched off at a September 12 Board meeting when Chancellor Keith Blayney delivered a report highly critical of Dr. Azneer's leadership style and management of the University. In the following weeks, the Board placed both Dr. Azneer and Dr. Blayney on administrative leave. Amid the controversy, Dr. Azneer said early in November he would not seek renewal of his contract, which expired in June of 1993. Taking the matter further, the Board on December 5 announced it would seek resolution to the contracts of Drs. Azneer and Blayney.

The following headlines are a sampling of the plethora of articles that appeared in the Des Moines Register regarding the scandal.

The University looks to the future following shifts in leadership.

The actions toward resolution of the contracts resulted from the Belin Harris Lamson & McCormick law firm's findings about Dr. Azneer reported to the Board; and the manner in which Dr. Blayney presented and characterized some of his charges concerning Azneer and the University.

Dr. Richard Brown, Chairman of the Board's ad hoc committee overseeing the investigation, noted that the Belin firm's report, delivered March 19, marks the conclusion of one chapter in the University's history as well as the beginning of another, and that "it has, admittedly, taught us some tough lessons. Despite the turmoil, we can still look back and say we have come a long way in the past 20 years."

-This article was compiled from articles appearing in the University Chronicle.

SSP, the National Osteopathic Honor Society, is a fraternal organization dedicated to community service. Members are invited to participate based upon their class rank. A decision to include First year students in the club has made this past year an especially active one for SSP and has substantially increased membership. SSP sponsors many events on campus, from tours for prospective students to the Internship and Residency Forum. Additional projects designed to recognize the UOMHS community include the "Post-Gross Toast" to celebrate the completion of Anatomy, and the presentation of the Betty Chu award, which honors a student who balances the roles of student and mother.
Throughout the year, SSP raises funds through name tag sales, raffles and events such as Coffee House and Airband. These funds support community services such as the Children's Habilitation Center in Johnson, Iowa. Members also sponsor programs such as wheelchair basketball games and Tiny Tots, which provides free physicals to pediatric patients.

Feel those endorphins kick in!
We would like to thank everyone who contributed to the 1993 Pacemaker. Without your photos and input, this book would not have been possible!

We especially want to extend our gratitude to Mike McFarlane, Bob Mutch and Maria Micale, who are computer wizards, and to those members of the classes of 1993 who took the time to mail photos to us. Thanks also to Don Kane, Dan, Russ and Whitey.

Thank you,
Sherry & Jen

Pacemaker Staff:
Co-editors-Sherry Stevens & Jennifer Swartz
Photographer-Russell Anderson
Advertising-Dan Wright

This yearbook was always our first priority!

Russ proudly displays his plastic fish.

Dan really "hustled" to get advertising!

Class of 1960
Together, we can make a world of difference.

At Botsford, you'll have the opportunity to help people by using what you've learned. But you'll also be able to use the latest technology while you train in your choice of 20 specialties in a challenging setting.

Botsford is known nationally as a leading osteopathic teaching hospital. Each year, over 120 interns and residents enhance the high quality care provided by our staff of more than 350 physicians.

We offer a wide range of specialty and sub-specialty programs as well as alternate and specialty track internships in OB/GYN, Internal Medicine and special emphasis in Family Practice. Our affiliation with Michigan State University College of Osteopathic Medicine gives you additional access to the latest research in diagnostic and therapeutic technology.

The continued growth of Botsford is a reflection of the expanding health needs of the community it serves. We invite you to grow with us.

At Botsford, we believe that making a difference in the world starts in our community.

Please call the Medical Education Office at (313) 471-8224, for information on our comprehensive benefits package and information regarding the following programs: Anesthesia, Cardiology, Emergency Medicine, Gastroenterology, Family Practice, General Surgery, Infectious Disease, Internal Medicine, Medical Diseases of the Chest, Nephrology, Neurology, Obstetrics/Gynecology, Ophthalmology, Orthopedic Surgery, Otorhinolaryngology/Orofacial Plastic Surgery, Pathology, Peripheral Vascular Surgery, Podiatry, Radiology, Urologic Surgery.

Botsford General Hospital is a charter member of COGMET (Consortium for Osteopathic Graduate Medical Education and Training).
OUTSTANDING MEDICAL EDUCATION FACILITY... LOCATED IN ONE OF THE FASTEST GROWING MARKETS IN THE COUNTRY.

Start your medical career at a dynamic not-for-profit community hospital that is also recognized as an outstanding medical education facility. Located in an area regarded as one of the fastest growing markets in the country, Doctors Hospital is a regional campus of the Ohio University College of Osteopathic Medicine. The 200-bed hospital has more than 125 staff physicians, representing a broad range of specialties, and offers the most recent developments in techniques, technology and equipment - as well as the rehabilitative, therapeutic and support programs that make the vital difference in total patient care.

JOIN A WINNING TEAM.

Take advantage of the opportunities available to new physicians at Doctors Hospital:

- Internships that include in-depth exposure in the five A.O.A.-required rotations plus a wide variety of elective specialties and sub-specialties.
- Five Residencies covering a full range of specialties from general practice through surgical.

For complete information write: Richard Langsdorf, D.O., Director of Medical Education, Doctors Hospital of Stark County, 400 Austin Ave., N.W., Massillon, Ohio 44646. Or call (216) 837-7239.
